1. INTRODUCTION

1.1 THE INTEGRATED DEVELOPMENT PLANNING PROCESS

The Integrated Development Planning process is a continuous cycle of planning, implementation, formulation and development of new Integrated Development Plan (IDP) Document. It is a process through which municipalities prepare strategic development plans for a five-year period. An IDP is one of the key tools for Local Government to cope with its new developmental role and seeks to arrive at decisions on issues such as municipal budgets, land management, promotion of local economic development, and institutional transformation in a consultative, systematic and strategic manner. All municipalities are expected to formulate their Integrated Development Plans (IDP) and be reviewed annually (financial year). The éDumbe Municipality is now engaging in the new development of Integrated Development Plan in accordance with requirements set out in the Municipal Systems Act (32 of 2000) and Local Government Municipal Planning and Performance Management Regulations (2001).

The IDP implementation programme is monitored to identify if the Organizational Objectives, Key Performance Indicators and Targets are being achieved. Monitoring also involves gathering of information on changing circumstances in different situations such as:

- Baseline data and demographics,
- New policy legislation,
- Corporate development,
- Sector departments,
- New investments opportunities,
- Sector development plans,
- Changes in the existing situation due to unexpected events such as natural disasters,
- Input from stakeholder organizations and constituencies,
- Budget information from other spheres of government as well as municipal budget review process,
- More or improved in-depth information about new developments and trends.

This kind of information is normally kept by the Municipal Manager or designated official throughout the year and is evaluated during the IDP review process of its relevance to the review process.

In order to ensure certain minimum quality standards of the Integrated Development Plan (IDP), and a proper coordination between and within spheres of government, the preparation of the process plan has been regulated in the Municipal Systems Act (32 of 2000). The preparation of the process plan, which is in essence the IDP process set out in writing, requires the adoption by Council.

This plan has to include the following:

- A programme specifying the timeframes for the different planning activities steps;
- Appropriate mechanisms, processes and procedures for consultation and participation of local communities, organ of state, traditional authorities, and other role players in the IDP drafting process;
- An indication of the organizational arrangements for the IDP process;
- Binding plans and planning requirements, *i.e.* policy and legislation; and
- Mechanisms and procedures for vertical and horizontal alignment.

1.2 LEGISLATIVE REQUIREMENT / LEGAL CONTEXT

1.2.1 IDP KEY BINDING LEGISLATION

The preparation of an IDP Process Plan is referred to in Chapter 5, Section 28 of the Municipal Systems Act, Act 32 of 2000 as follows:

Adoption of a process-

- (1) *Each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting and adoption and review of its integrated development plan.*
- (2) *The municipality must through appropriate mechanisms, processes and procedures established in terms of Chapter 4, consult the local community before adopting the process*
- (3) *A municipality must give notice to the local community of particulars of the process it intends follow.*

In terms of the core components of the integrated development plans, Section 25 of the Municipal Systems Act (32 of 2000) indicates that:

“An integrated development plan must reflect:

- The municipal council’s vision for long term development of the municipality with special emphasis on the municipality’s most critical development and internal transformation needs;
- An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services;
- The councils development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
- The councils development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation;
- A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;
- The councils operational strategies;
- Applicable disaster management plans;
- A financial plan, which must include a budget projection for at least the next three years; and
- The key performance indicators and performance targets determined in terms of section 41”.

Moreover, the Local Government: Municipal Planning and Performance Management Regulation 2001, provides elaborately on the contents of the IDP and the processes the Municipality must subject the IDP process into when doing its development or review. The alignment of IDP and preparation of Annual Budget is regulated in terms of Chapter 4 Section 21 of Municipal Finance Management Act 56 of 2003; therefore it’s very crucial that the IDP and Budget are linked as per the legislative requirement.

The Annual Budget

The Annual Budget and the IDP are inseparably linked to one another, something that has been formalised through the promulgation of the Municipal Finance Management Act No. 56 (2003). Chapter 4, Section 21(1) of the Municipal Finance Management Act (MFMA) indicates that:

“The Mayor of a municipality must:-

- a) *At least 10 months before the start of the budget year, table in the Municipal Council a time schedule outlining key deadlines for:

 - i. *The preparation, tabling and approval of the annual budget;*
 - ii. *The annual review of:

 - aa) *The integrated development plan in terms of Section 34 of the Municipal Systems Act; and*
 - bb) *The budget related policies.**
 - iii. *The tabling and adoption of any amendments to the integrated development plan and the budget-related policies; and*
 - iv. *The consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).**

The IDP process should proceed within the context of all applicable legislation, mandates, policies and development planning requirements. The impact of the pieces of legislation on the IDP must be taken into account.

6. ALIGNMENT MECHANISMS

6.1 VERTICAL ALIGNMENT

6.1.1 NATIONAL GOVERNMENT DEPARTMENTS

éDumbe Municipality will endeavour to align the IDP review process with relevant National legislations, Policies, Programmes (i.e. CBPWP, ISRDP, Water, Urban Renewal Programme, etc.) and financial plans (i.e. MTEF, MTEP, etc.)

6.1.2 PROVINCIAL GOVERNMENT DEPARTMENTS

Alignment between éDumbe municipality and the Provincial Government will occur and be reinforced at the IDP Representative Forum. During this process, we will be able to integrate the plans, programmes and budgets of the Provincial Government Departments into the éDumbe Municipal IDP.

6.2 HORIZONTAL ALIGNMENT

In terms of Chapter 5 and Section 26 of the Municipal Systems Act (2000), Districts are required to prepare and adopt a Framework Plan which indicates how the District and Local Municipalities will align their IDP's. The Framework Plan provides the linkage and binding relationships to be established between the district and local municipalities, and in doing so, proper consultation, coordination and alignment of the review process of the district municipality and various local municipalities can be maintained.

Therefore, alignment at this level will be co-ordinated at the Zululand District Municipality's IDP Steering Committee (IDP Planners/Technical Forum). The main function of the Committee is to monitor progress in the various reviews process and to ensure alignment between the district and the local municipality in terms of the framework plan. A series of alignment meetings will be held between the Zululand District Municipality and its Local Municipalities.

6.3 ALIGNMENT AT LOCAL LEVEL

The Municipal Manager / Planning Manager (IDP Manager) with the support of the IDP Steering Committee will ensure that all the role-players are performing their duties. Performance in terms of expected roles and responsibilities will be monitored at the Steering Committee members and corrective measures be taken should there be unsatisfactory performance. The cross boundary alignment with other local municipalities such as éDumbe, UPhongolo and EMadlangeni municipalities as well as UMkhondo municipality situated at Mpumalanga Province should be strengthened as and when necessary.

6.4 ALIGNMENT WITH SERVICE PROVIDERS

Alignment with Service Providers is very essential in order to ensure that the DM and LM's priorities can be reflected in Service Providers' project prioritization process, as well as to ensure that their projects can be reflected in the IDP documentations. It is anticipated that one Service Provider Forums (SPF's) will be held during this round of the IDP Review as well as a series of one-on-one meetings with key departments.

7. COST ESTIMATES

7.1 ESTIMATED COST BREAKDOWN

The municipality has not yet estimated costs that will be incurred for the IDP Development Process due to financial constraints.

7.2 IDP AND SDF PREPARATION

éDumbe Local Municipality will appreciate a support grant of any amount from the Department of Corporate Governance and Traditional Affairs (KZN CoGTA) as our 2023/2024 IDP will be done in-house with the assistance from Development Planning Shared Services (ZDM:DPSS) Senior Town Planner.

The éDumbe Local Municipality Spatial Development Framework (SDF) was comprehensively reviewed during the 2019/2020 Financial Year with the appreciated assistance of the grant funding as provided by KZN CoGTA. The municipality has review the SDF externally with the assistance of a Service Provider and this process ran concurrently with the IDP Process.

The success of the éDumbe IDP/Budget Review Process Plan will depend on the co-operation of all stakeholders and IDP structures (listed in the Plan) in order to achieve the developmental objectives in a spirit of cooperative governance. The éDumbe Local Municipality will strive to develop an IDP that is credible and all inclusive, ensuring that it is a document that is a true reflection of its Council and Citizens.
